Brownells Supports and Serves Law Enforcement in Iowa and Beyond

A homegrown Iowa tradition for 75 years, Brownells is not just the World's Largest Supplier of Firearms Accessories, Ammunition and Gunsmithing Tools. They are also strong supporters of law enforcement throughout the U.S.

Founded in 1939 by Bob Brownell in Montezuma, Iowa, Brownells sells hundreds of law enforcement products, including [armorers tools](#), firearm parts, [duty gear](#), [training equipment](#), lights, [night vision](#), ammunition and [less-lethal devices](#).

Everything is backed by Brownells' legendary 100 percent total satisfaction, forever guarantee, and offered at special, discounted prices for law enforcement and military personnel. That's right, be sure to tell their customer service staff that you're a law enforcement officer (current or retired), and you'll get a discount on most products.

Brownells' support for Iowa police officers goes beyond good prices on quality products. When the worst happens, and at the family's request, they donate their photo and video production teams' services to [Iowa C.O.P.S.](#) to document and commemorate the visitation and memorial services of any Iowa officer killed in the line of duty.

Brownells is also the presenting sponsor of the [NRA's Life of Duty Program](#). It provides law enforcement, military and first responders with all the standard NRA member benefits, plus \$27,500 combined accident insurance, special discounts on gear, subscriptions to all NRA publications including the *NRA American Warrior* digital magazine and access to the [Life of Duty Network](#), an online gathering place for members. It's totally free, so be sure to sign up.

Last, Brownells hosts [training classes](#) for law enforcement armorers on its campus in Montezuma. Further, Brownells' world-class [Big Springs Shooting Complex](#) is available for police training and recertification at very little cost. Big Springs has ranges extending out to 500 yards for rifles; 100 and 50 yards for handguns and carbines; and an advanced trap, skeet and 5-stand range for shotguns.

In the future, Brownells will be able to provide even more support to Iowa police officers and departments, as construction of its brand new 200,000-square-foot facility in Grinnell is nearing completion. The new building will more than double the warehouse capacity of the Montezuma warehouse, and will sit only a few hundred feet north of Interstate 80. It will also house a unique “experiential retail” space, where customers will be able to not only buy products, but learn on-site how to use the products to their fullest potential.

For three-quarters of a century, Brownells has been providing products, information and support to Iowa’s police officers, and numerous law enforcement and military agencies across the U.S. Brownells looks forward to finding new ways to help law enforcement in the future.
